X Action requires an appropriation increase to the ____ Capital Budget or X Operating Budget.
X Action provides increased revenue for appropriation increase.

Background/Supporting Information Attached

The department is requesting to contract with Hennepin County to receive \$250,000 in federal funding received through a grant from the state Department of Human Services to implement the Minnesota Family Investment Program (MFIP) Innovation project. This is a pilot project to implement a single point of contact model to serve 90 MFIP minor caregivers up to age 20 and their children. Case managers from the Minnesota Visiting Nurse Agency will work with teen parents who attend a Minneapolis Public School. They will monitor the young parents MFIP compliance, proactively connect her with prenatal care and child development services, monitor school attendance, and met out sanctions if the teen parent fails to cooperate. This pilot is part of a long range plan for Hennepin County to restructure its services to implement the single point of contact model with its full MFIP teen parent population.
